CARACTERISTICS

FIRST 95 AH BATTERY
Réf. **BAT1295C7**

Dangerous material : oui
Weight : 21,10 kg.

- Capacity : 95 Ah
- Length : 353 mm
- Model : P204900
- Weight : 21 kg
- Height : 190 mm
- Width : 175 mm
- Battery terminals : Standard
- Battery technology : liquid electrolyte
- Type of battery : starter/servitude

SPECIFICATION

Sealed-cap, maintenance-free 12V marine batteries, ideal for everyday low-intensity service and starting applications requiring reliability and performance.

- Type: SMF (Sealed Maintenance Free).
- Tilt tolerance: Up to 45°.
- Starting : Reliable even under severe climatic conditions.
- Plate technology : Expanded metal or continuous casting, ensuring better conductivity and increased starting power.
- Technology: Calcium/Calcium, extending life and eliminating water consumption.
- Self-discharge: Virtually zero, guaranteeing optimum availability.

First batteries are distinguished by their high energy reserve and robustness, offering an economical and efficient solution for marine energy needs.

Note: Double terminals are only available on model 110A.
