## CARACTERISTICS

### CROSSEVEN PRO DUAL BATTERY 12 V 180 AH

Réf. **BAT12180C7**

**Dangerous material :** oui
**Weight :** 43,70 kg.
**Catalog page :** 270

- Capacity : 180 Ah
- Length : 507 mm
- Model : P204909
- Weight : 43.5 kg
- Height : 210 mm
- Width : 212 mm
- Battery terminals : Lateral
- Battery technology : liquid electrolyte
- Type of battery : starter/servitude

## SPECIFICATION

Sealed, maintenance-free 12V marine battery designed for mixed use, offering reliable starting and service performance.

Technical characteristics:

- Type: SMF (Sealed Maintenance Free).
- Handling handle: Facilitates transport and installation.
- Tilt tolerance: Up to 45°.
- Energy return: Reliable even in severe climatic conditions.
- Technology: Calcium/Calcium, increasing service life and reducing water consumption.
- New plate technology: Expanded metal or continuous casting, allowing better conductivity and increased starting power.

PRO batteries are distinguished by their large energy reserve and robustness. The 140A, 180A and 225A models benefit from a semi-traction design to meet the demands of intensive use.

This maintenance-free range is ideal for boating, guaranteeing optimal performance even in extreme conditions.
