Tinned flexible cable - 5x2,5mm² - black - 30m

Réf : **CM5X2,5N30**

Ultra-flexible multi-conductor cable with tinned copper conductors providing excellent corrosion protection.

CARACTERISTICS

TINNED FLEXIBLE CABLE - 5X2,5MM² - BLACK - 30M

Réf. **CM5X2,5N30**

Dangerous material : non

Weight :

Catalog page : 287

- Units in box : Reel
- Length : 30 m
- Model : P206416
- Color : Black

SPECIFICATION

These cables are designed for performance and durability in harsh environments. Thanks to their PVC insulation, these cables can withstand temperatures from -30ºC to 70ºC, and are resistant to fuels, lubricating oils and diluted acids. Their extra-flexible sheathing facilitates installation, while tinned copper conductors offer optimum protection against corrosion, an essential asset for marine applications. Compared with bare copper cables, this thin-insulated model offers a significant reduction in weight and volume, ideal for complex electrical harnesses. Its robustness guarantees excellent resistance to abrasion, cuts and moisture, ensuring enhanced reliability in low-voltage applications up to 60 V.
