

Gel battery DG12-120 - 12 V 120 A - Termination F12 (M8)

Réf : **GEL12120R**

The DG (Deep Cycle GEL) battery range is a pure GEL battery that can float for 15-20 years, making it an ideal choice for applications that require frequent cyclic discharge or standby use in harsh environments. The DG Series batteries use solid state grids, highly purified lead and a patented gel electrolyte for excellent deep discharge recovery in frequent cyclic discharge use, providing up to 400 cycles at 100% DOD. These batteries are suitable for solar systems, CATV systems, marine and recreational applications, deep discharge inverters, communications and telecommunications, etc.

CARACTERISTICS

GEL BATTERY DG12-120 - 12 V 120 A - TERMINATION F12 (M8)

Réf. **GEL12120R**

Dangerous material : non
Weight : 33,50 kg.

- Capacity : 120 A
- Length : 407 mm
- Model : DG12-120
- Height : 225 mm
- Width : 177 mm
- Battery technology : gel

SPECIFICATION

- Deep Cycle GEL VRLA Batteries
- Voltage class: 2V/6V/12V
- Capacity range: 26Ah~3000Ah
- Designed for frequent cyclic charge and discharge applications under extreme environment.
- Suitable for solar & wind energy, UPS, telecom systems, electric power systems, control systems, golf cars, etc.
