SPECIFICATION

Benefits:

Perfect graying remover.

Perfect teak restoration in combination with TEAK STEP 1 Stain Remover Cleaner.

Laboratory-tested, does not affect joints.

Laboratory-tested, does not affect stainless steel.

No rinsing between the two phases, time-saving.

Acid-free formula.

Usage and Maintenance:

Dosage: Apply undiluted or diluted by 50% with water depending on the condition of the teak.

After applying TEAK STEP 1, without rinsing, place TEAK STEP 2 in a bucket and, using a clean deck brush, gently spread it in the direction of the wood grain.

Your teak will gradually lighten as you spread it to regain its original beautiful appearance. Allow it to sit for 5 to 10 minutes, then rinse

thoroughly with water, gently scrubbing with a soft brush to avoid damaging the teak fibers.
