SPECIFICATION

Repaplast Repair is a two-component product designed to quickly repair and bond almost all modern plastics. It offers excellent adhesion to a range of plastics, as well as painted and unpainted metal. It dries quickly, allowing further treatment in just 15 minutes. Thanks to its elasticity, it strengthens the repaired part, making it durably resistant to stress. Easy to sand and compatible with almost all modern paint systems, Repaplast Repair is part of the Repaplast Plastic Repair System and is suitable for repairing cracks and holes, in combination with Repaplast Foundation Tape for larger holes. Used with the Mixer Gun, it guarantees precise application and a long shelf life for the opened cartridge.

- Two-component product for repairing and bonding plastics
- Excellent adhesion
- Very fast drying
- Excellent sanding properties, can be painted over perfectly
- Practical double cartridge for precision dosing
- OEM approved
