

MS polymer windscreen adhesive Safe Seal IQ 290 ml

Réf : **IN0124290000**

Safe Seal IQ: MS polymer based glazing adhesive without isocyanates and solvents. Safe Seal IQ is a high quality glazing adhesive based on MS polymer. Specially developed for the mobility sector, it allows for fast bonding without the use of a glass primer. With a processing time of approximately 15 minutes, it meets the need for speed. In addition, Safe Seal IQ does not contain any isocyanates or solvents, ensuring a safe and environmentally friendly application.

CARACTERISTICS

MS POLYMER WINDSCREEN ADHESIVE SAFE SEAL IQ 290 ML

Réf. **IN0124290000**

- Units in box : Cartridge
- Type of adhesive : Ms Polymer

Dangerous material : non
Weight :
Catalog page : 143

SPECIFICATION

- Excellent adhesion to old window glue, lacquered metal, polyester, glass and ceramic edges, without the need for primer/activator.
- Simple working method without the need for a primer and/or activator.
- Open time of +/- 20 minutes.
- Does not contain solvents, isocyanates or silicones.
- Long shelf life after opening.
- Easy to remove from hands.
- Good UV resistance.
- Very good creep resistance, the adhesive bead does not fall off.
- Very high initial adhesion, the glass does not sag.
- Good resistance to torsion effects, contributes to the rigidity of the bodywork
- Passed the FMVSS 212 crash test after 30 minutes with the best result.
- High modulus, low conductivity (HMLC).
- OEM approved.
