

Deblock Oil XS rust remover 500 ml

Réf : **IN0311079999**

Deblock Oil XS is a unique formula that combines fast-acting rust removers and lubricants to provide far greater effectiveness than conventional penetrating oils. Thanks to its specific ingredients, this product provides high quality interfacial lubrication, even under extreme shear conditions, such as loosening rusty bolts or nuts.

SPECIFICATION

It is a versatile product that uses slow evaporating solvents, making it suitable for situations requiring prolonged action. It is particularly effective in loosening screw connections that are extremely rusty.

The product is suitable for all types of metal, including sensitive connections such as steel bolts in aluminium, to prevent damage during loosening.

The unbreakable nozzle with integrated straw makes it easy to reach hard-to-reach areas, while the aerosol can is equipped with a special valve that allows it to be used in any position. This is a major advantage, as many mounting points are often difficult to access or located under objects.

- Quickly releases stuck parts
- Fast action on rust, dirt...
- Does not attack rubber
- Repels moisture
- Absorbs extreme shear loads and thus provides additional lubrication during disassembly
- Ideal for difficult applications such as aluminium/steel joints
