## SPECIFICATION

With Repaplast Finish you can easily and effectively restore damage to plastic parts. Its application results in a smooth and uniform surface, ready for painting. Thanks to its specific formulation, this coating ensures optimal adhesion to both plastics and subsequent paint layers.

Whether for automotive, industrial or domestic repairs, Repaplast Finish offers a practical and reliable solution to restore the appearance and performance of damaged plastic parts.

Add Repaplast Finish to your repair kit to achieve professional and long-lasting results on plastics.

- Two-component epoxy coating
- Ideal transition layer to the paint system
- Ideal for filling and levelling scratches and unevenness
- Can be overcoated with almost all modern paint systems
- Very flexible with excellent adhesion to most plastics

- Quickly dries through, can be sanded after 20 minutes
- Very good sanding properties due to the fine, closed structure
- Practical double cartridge for easy and precise dosing
