

Semi-dry PTFE lubricating oil Fine-Tef Oil 500 ml

Réf : **IN0310999999**

Fine-Tef Oil is a high quality liquid lubricating oil formulated with PTFE. This oil penetrates the surface structure, forming a durable and virtually dry lubricating layer that provides excellent wear protection. In addition, its special formula repels dirt and dust, keeping surfaces clean and optimal.

CARACTERISTICS

SEMI-DRY PTFE LUBRICATING OIL FINE-TEF OIL 500 ML
Réf. **IN0310999999**

- Units in box : Aerosol spray
- Type of oil : Mineral

Dangerous material : non
Weight :
Catalog page : 151

SPECIFICATION

With its wide temperature range, Fine-Tef Oil is suitable for a wide variety of applications requiring light lubrication. It is particularly suited to the production environments of the food processing industry, ensuring reliable and safe performance.

With Fine-Tef Oil, you can rely on effective and long-lasting lubrication, improving the life and performance of your equipment while maintaining clean working conditions without dirt build-up.

- Liquid PTFE lubricating oil with perfect lubrication properties
- Classified H1 by NSF, therefore suitable for use in the production environments of food processing companies
- Neutral, colourless oil that does not affect sensitive substrates and does not stain
- Forms a perfect lubricating surface due to the highest quality PTFE additives
- Lubricates better, longer and more efficiently than conventional light lubricating oils
- Leaves a virtually dry lubricating layer after evaporation that does not attract dirt and dust
- Repels moisture and thus prevents hinges and parts from freezing
- Good corrosion protection due to the addition of corrosion inhibitors
- Temperature range from -50°C to +250°C
- Completely silicone-free
