- Type of adhesive : Ms Polymer

SPECIFICATION

This product offers permanent elasticity and excellent adhesive properties. It is ideal for bonding and sealing applications requiring strong adhesion to a wide range of surfaces in the automotive, construction, wood and metal industries. Inno-Seal is characterised by its rapid surface film formation, fast core drying and outstanding flexibility.

- Solvent-free.
- Isocyanate-free.
- Odourless.
- Can be overpainted almost directly with almost all modern paints.
- Excellent adhesion.
- EMICODE EC1 Plus certified (licence number 12204/13.04.18).
