Apelo A1 white/blue 1800 lm anthracite lens - In blister pack

Réf : **AP1WBN1**

Brilliant underwater illumination is made possible by optical intelligence. It lets you create an aquatic atmosphere by diffusing intense light into the surrounding water. Underwater lighting supplied in a blister pack, ideal for in-store shelving.

CARACTERISTICS

APELO A1 WHITE/BLUE 1800 LM ANTHRACITE LENS - IN BLISTER PACK

Réf. **AP1WBN1**

Dangerous material : non
Weight : 0,37 kg.
Catalog page : 342

- Angle : 90°
- Diameter : 95 mm
- Protection rating : IP68/IP69
- Luminous flux : 1800 lm
- Weight : 250 g
- Depth : 23.5 mm
- Power : 20 W
- Complies with : EN55015/ CISPR 15, IEC60533, IEC61547, ICES-5
- Color : Dark gray
- Color of lighting : White/Blue
- Material : Polymer
- Lighting technology : Led
- Mounting method : Surface mounted

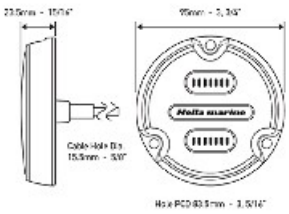

SPECIFICATION

Apelo A1 incorporates technological advances in underwater lighting to deliver exceptional luminosity. This lamp generates up to 1,800 lumens of light, thanks to its optical intelligence and the use of advanced materials, for unforgettable lighting experiences.

Apelo's optical intelligence effectively concentrates light patterns below the waterline. It has a narrow vertical angle, but a wide horizontal angle, which translates into increased brightness when viewed from above. The tough, UV-resistant Grilamid lens ensures exceptional transparency and superior durability.

Apelo underwater lights are designed and manufactured in New Zealand, meeting the highest international standards for robustness, precision and quality of finish. The Apelo A1 is a surface-mount design with an ultra-durable, corrosion-resistant thermal polymer housing, suitable for all types of hulls.
