PLT® Solas air cylinder

Réf : **PLT2506**

Air Cylinder with closing valve. 1,45 liter (50 fl oz). Operating Pressure: 300 bar/4350 psi. To fill up to 300 bar (4350 psi), connect the air cylinder to a standard scuba diving (breathing air) compressor with 5/8"" threads following DIN 477. If filling from a 200-bar compressor, use Article No. 1308 Yoke (DIN477) and claw adapter Article No. 1315 to establish the connection between the air cylinder and the compressor.
