DORADE BOX FOR AIR SUCTION VENT TYPE 90

Réf. **VEDBOX090**

- Model : Type 90
- Depth : 83 mm

Dangerous material : non
Weight : 0,36 kg.

SPECIFICATION

Improve the performance of your engine intake system with the Vetus DBOX, an ingenious solution designed for engine intake grilles. This dorade box is an ideal option for all standard engine intake grilles (except ASVREC), offering a significant improvement in airflow and protection against water ingress.

Made from high-quality synthetic material, the Vetus dorade box guarantees exceptional durability and resistance to the most demanding marine conditions. Its ergonomic design makes for easy installation, while the self-adhesive fastener ensures secure attachment without compromising convenience.
