SPECIFICATION

Discover our capstan winch, specially designed to facilitate the recovery of your tender. Equipped with a stainless steel drum, this winch offers exceptional corrosion resistance, ensuring long-term durability in demanding marine environments.

The winch drum is pre-configured for easy attachment of a sling and carabiner, providing a convenient solution for securing the lifting process (please note that the sling and carabiner are not included as standard with the product). This feature makes the winch versatile and ready to integrate into your existing recovery system.

Whether you're an experienced boater or an occasional boat owner, our capstan winch is designed to simplify lifting operations on your tender. The stainless steel construction ensures not only exceptional strength, but also reliable performance, even in tough marine conditions.
