- Type of windlass : Vertical

SPECIFICATION

The CLP vertical windlass is a robust AISI 316 stainless steel solution designed for the demanding needs of sailing enthusiasts. Available in high or low profile, this windlass offers maximum adaptability with different transmission options, ensuring seamless integration on a variety of boats up to 16 metres.

Featuring an integrated rope tensioner, the CLP provides efficient rope management while offering increased versatility thanks to its compatibility with 6 mm, 8 mm or 10 mm chain. An integrated chain counter sensor adds a practical feature for accurately tracking the measurement of the chain being lowered.
