- Type of windlass : Vertical

SPECIFICATION

The CLS vertical windlass in AISI 316 stainless steel is designed to meet the needs of demanding sailors. Available in high or low profile, these windlasses offer exceptional performance for boats up to 13 metres. This range of windlasses is versatile and capable of using chains up to 8 mm in diameter, and is equipped with a rope tensioner for efficient management. What's more, they come with an integrated chain counter so you can easily monitor the length of your chain while manoeuvring. Made from high-quality AISI 316 stainless steel, these windlasses combine strength and durability to cope with the most demanding marine conditions.
