Spectra foldable solar panel 100 W

Réf : **SFPLIABLE100W**

The Spectra foldable solar panel offers a portable, high-performance solution for recharging on the move. Featuring high-efficiency PERC monocrystalline cells, it ensures optimum output. Its sturdy frame with fold-out support legs makes it easy to orientate towards the sun. Equipped with USB and Anderson ports, it's ideal for camping, hiking or outdoor leisure activities.

CARACTERISTICS

SPECTRA FOLDABLE SOLAR PANEL 100 W
Réf. **SFPLIABLE100W**

Dangerous material : non
Weight : 6,30 kg.

- Thickness : 40 mm
- Length : 607 mm
- Weight : 3 kg
- Max. power : 100 W
- Width : 537 mm
- Solar panel technology : monocrystallin
- Type of solar panels : rigid
- Current at max power Impp : 5.50 A
- Open circuit voltage Voc : 22.5 V

SPECIFICATION

The Spectra Foldable is a foldable solar panel designed to provide a portable and efficient recharging solution. Thanks to its high-performance PERC monocrystalline cells, it captures and converts solar energy with great efficiency. Its robust, lightweight black anodised aluminium frame incorporates a carrying handle and locking clip for easy transport.

Designed for adventurers and professionals on the move, this solar panel has adjustable support feet to optimise its angle for maximum exposure to the sun. With its USB and USB-C ports and an Anderson output, it can be used to recharge various electronic devices and batteries.

Ideal for camping, fishing, hiking or any outdoor activity, the Spectra Foldable is an autonomous and reliable energy companion. It comes with an MC4 adapter, a 2-metre cable and a carry bag for convenient and secure use.

Technical specifications:

- Max power: 100 W
- Rated voltage: 18 V
- Current: 5.55 A
- Dimensions folded: 60.7 x 53.7 x 4 cm
- Dimensions unfolded: 109.2 x 61.7 x 2.2 cm
