CARACTERISTICS

MANUAL LED SPOTLIGHT SLB-B S/S 120 W 12-24 V SBFB

Réf. **SLBSS120**

Dangerous material : non
Weight : 24,10 kg.
Catalog page : 323

- Angle : 3.5° / 15°
- Protection rating : IP66
- Luminous flux : 7870 lm
- Temperature range : -40° / 55°
- Weight : 10.23 kg
- Power : 120 W
- Candela x 1000 : 400 cd
- Range at 1 lux : 690 m
- Color : White
- Color of lighting : White
- Lighting technology : Led

SPECIFICATION

A versatile and durable solution

As with all Luminell products, only the highest quality marine materials are used, with an engineered design focused on withstanding the harshest marine environments. The LED module is manufactured using Luminell's tried and tested LED technology for marine and offshore environments.

The SLB B is an entirely new design, tested for a full year by search and rescue (SAR) teams with excellent feedback. It is designed for new builds as well as for easy integration into retrofit requirements.

The SLB B searchlight is designed to withstand demanding use on vessels such as SAR, pilots, police, ambulance, patrol, inshore fishing and water taxis. It can also be used on any type of vessel requiring a flexible, powerful and compact searchlight option.
