Spectra MPPT 20 A solar charge controller

Réf : **CA11135**

The new MPPT solar controllers use 100% digital technology to track the maximum power point (MPPT) with 99.9% accuracy, thereby optimising the efficiency of solar panels.

CARACTERISTICS

SPECTRA MPPT 20 A SOLAR CHARGE CONTROLLER

Réf. **CA11135**

Dangerous material : non
Weight : 0,90 kg.
Catalog page : 256

- Dimensions : 136.6 x 136.6 x 67.1 mm
- Charge current : 20 A
- Protection rating : IP32
- Model : CA-11/135
- Temperature range : -20 - +55ºC
- Weight : 830 g
- Power : 260 / 520 W
- Max. power : 260/520 W
- Type of regulator : MPPT
- Open circuit voltage Voc : 90 V

SPECIFICATION

The new MPPT solar controllers use 100% digital technology to track the maximum power point (MPPT) with 99.9% accuracy, thereby optimising the efficiency of solar panels.
Multi-stage charging ensures optimal conditioning and extends battery life.
The 20 A and 40 A models feature Bluetooth connectivity, with communication via the free Solarlife app for iOS and Android.
