SPECIFICATION

Discover the ultimate dry-dock boat port systems. Protect your boat hull from marine growth and corrosion without forgoing the convenience of easy launching.

Advantages :

- **Protect your Boat Hull**: Floating boat ports let you store your boat out of the water protecting your hull from marine growth and corrosion without forgoing the convenience of easy launching.
- **Improved Safety**: Our innovative boat ports allow you to easily board your boat directly from the floating platform making launching and docking safe for even children or elderly boaters.
- **Easy Installation**: Boat ports are made from ultra-durable but light-weight modular elements that are easy to transport and assemble.

Floating cube features:

- Temperature & Pressure Resistant: 2 Way Venting Valve
- Light Weight: < 7 kg / block
- Flexible System: Wave adaptive
- Marine Durable: 10 yr. Lifespan Warranty
- High-quality Material: 100% (HDPE) - High Density Polyethylene
- Anti-micro plastic: Oil, Acid, Salt, UV, Impact, Fire Resistant
