## SPECIFICATION

This complete shower kit is designed for easy and efficient installation on yachts, dinghies and sailboats. It includes an automatic electric pump with electronic control, offering reliable, effortless operation. Compact and self-priming, the pump features PEEK helical gears, nickel-plated brass body and fittings, and an integrated non-return valve for optimum performance.

The kit comes complete with 4 metres of white hose, screw fittings and a dispenser with fixing box, ensuring quick and durable installation. The system is ideal for marine applications, offering robustness and on-board convenience.
