Sanicubic 2 Classic lifting station

Réf : **SANICUBIC2CLASS**

The Sanicubic 2 Classic is a 2-pump lifting station designed to evacuate wastewater (grey water and black water) from private homes. Thanks to its Pro X K2 dilaceration technology, it can be used intensively, with discharge via a small-diameter pipe (50 mm). Supplied with a control box and an audible and visual alarm, it guarantees reliable and safe operation.

CARACTERISTICS

SANICUBIC 2 CLASSIC LIFTING STATION
Réf. **SANICUBIC2CLASS**

Dangerous material : non
Weight :
Catalog page : 175

- Alarm : 210 mm
- Maximum flow : 15 m³/h
- Diameter : 50 mm
- Outlet diameter : 50 mm
- Inlet diameter : 40 - 50 - 100 - 110 mm
- Frequency : 50-60 Hz
- Serial number : R4LCIP68NM
- Weight : 35 kg
- Power : 1050 - 1500 W
- Manufacturer's code : 3308815074443
- Maximum HMT height : 13 m

SPECIFICATION

The Sanicubic 2 Classic lifting station is a powerful, reliable solution for evacuating wastewater, both grey water and black water, from single-family homes and small buildings. It features two pumps operating alternately to ensure maximum efficiency, even under heavy use. Its Pro X K2 dilaceration technology crushes solid effluent, making it easier to discharge through a reduced diameter pipe (50 mm outside).

Designed to guarantee operation in all circumstances, the Sanicubic 2 Classic features a control panel with an audible and visual alarm, alerting you immediately in the event of a problem. A remote alarm box is also supplied for added security and remote monitoring.

Key features:

- 2 high-performance pumps for intensive use.
- Pro X K2 technology for efficient solids dilaceration.
- Discharge via 50 mm pipe, reducing installation constraints.
- Control panel with audible and visual alarm for optimum safety.
- Remote wired alarm box for remote monitoring.
- Perfect for single-family homes and small collective installations.

- The Sanicubic 2 Classic is the ideal solution for professionals looking for a robust, high-performance and safe lifting station, perfectly suited to intensive use in residential environments.
