SPECIFICATION

The Wichard fireman's eye carabiner, forged in 316L stainless steel, is a reliable and robust accessory designed for sailors and professionals. Its symmetrical shape and integrated eye facilitate the passage of a strap or splice, making it quick and efficient to use when manoeuvring on board. This carabiner offers excellent corrosion resistance, even in the most demanding marine environments.

Designed for easy and safe handling, this Wichard carabiner is particularly suitable for fast manoeuvring and industrial applications. It is important to consider the Maximum Working Load (MWL), especially for demanding industrial uses.

Technical specifications :

- Material: Forged 316L stainless steel
- Symmetrical shape for even load distribution
- Eye for strap passage or splicing
- Excellent corrosion resistance

Applications :

- Quick manoeuvres on board

- Various fastenings with strap or splice
- Maximum working load (MWL) for industrial applications
