SPECIFICATION

This forged 316L stainless steel safety carabiner, made in France by Wichard, is a registered design guaranteeing quality and robustness that meet the highest marine standards. Designed for multi-purpose use on board, it can be used for a variety of attachments as well as for suspending spinnaker leases. Thanks to its excellent working and breaking loads, this carabiner ensures optimum safety in the most demanding situations.

Its sleek, modern design, combined with the corrosion resistance offered by 316L stainless steel, makes it an ideal choice for marine environments. This carabiner is an essential piece of equipment for marine professionals looking for reliable, durable solutions.
