SPECIFICATION

This black square-head screw shackle is ideal for lifting and handling operations in demanding environments such as the marine industry, construction and industrial sites. Made from high-strength steel, it is specially designed to offer excellent durability and optimum safety when handling heavy loads.

Available in diameters ranging from 6 to 45 mm, it is suitable for a wide variety of applications, from lifting bulky loads to securing equipment. Its black finish offers extra protection against corrosion, while the square-head screw ensures fast, secure installation. This type of shackle is particularly popular in the fishing industry for its robustness and ability to withstand harsh conditions.
