CARACTERISTICS

POL500-NET MOBILE FUEL FILTRATION UNIT FRAME-MOUNTED - 230 V - 227 L/HR - 10 M

Réf. **POL500**

- Maximum flow : 227 L/H
- Micron rating : 10 µ
- Model : Frame-mounted

Dangerous material : non
Weight :
Catalog page : 125

SPECIFICATION

The POL500-NET is a mobile fuel filtration unit designed to meet the growing need for preventive fuel tank cleaning. Available on chassis or plate, it filters up to 227 liters per hour with 10-micron precision, effectively removing contaminants such as water and bacteria that accumulate during periods of stagnation.Ideal for professionals, the POL500-NET offers an economical alternative to traditional cleaning methods, delivering services up to five times more cost-effective. Its autonomous operation allows simultaneous maintenance tasks, optimizing time and resources.With a low investment cost, the POL500-NET ensures quick profitability while providing clients with a reliable solution to extend the lifespan of their fuel systems and minimize failure risks due to contamination.
