UP14-LP PEEK gear pump 33 l/min - 24 V

Réf : **UP14LP24**

Gear pump specially designed for air conditioning systems, meeting the demanding requirements of the marine sector with unique performance and reliability. Ideal for continuous operations.

CARACTERISTICS

UP14-LP PEEK GEAR PUMP 33 L/MIN - 24 V

Réf. **UP14LP24**

Dangerous material : non
Weight :
Catalog page : 178

- Dimensions : 235 x 225 x 119 mm
- Inlet/outlet diameter : 3/4 ""
- Maximum flow : 33 L/min
- Diameter : 19 mm
- Max. suction head : 3 m
- Length : 235 mm
- Model : UP14-LP
- Weight : 5 kg
- Max. pressure : 29 bar
- Height : 119 mm
- Width : 225 mm
- Ports : 3/4"" BSPP
- Fuse protection : 20 A

SPECIFICATION

Unlike traditional centrifugal pumps and magnetic drive models available on the market, this gear pump is self-priming and can prime at heights of up to three metres. This feature ensures that, even in choppy waters or when the boat sways, the flow of water through the system is maintained without interruption, ensuring that the air conditioning unit runs smoothly.
Equipped with gears made from PEEK, an innovative and ultra-durable polymer, the pump is perfectly suited to the transfer of salt water, resisting deterioration over time. This quality gives it exceptional longevity, even in harsh environmental conditions.
Equipped with a high-capacity motor, it can withstand intensive work cycles without the risk of overheating or premature wear, guaranteeing reliable performance over long periods of use.

- Nickel-plated brass body
- Stainless steel shaft
- Main applications: water transfer, cooling
- Protection rating: IP67
