SPECIFICATION

Grammer Actimo XXL - Air suspension pilot seat with 4-point harness
The **Grammer Actimo XXL** is a high-comfort seat with air suspension and 4-point safety harness, designed for operators of large construction machines. Its air suspension system with **APS (Automatic Positioning System)** ensures a stable position and constant contact with the pedals, while the **front/rear isolator** reduces horizontal vibrations.
Technical specifications:

- Wide air suspension with 24V compressor
- APS (Automatic Positioning System) to maintain position
- Adjustable shock absorber
- Vertical suspension travel: 100 mm
- Automatic weight adjustment: 50-130 kg
- Pneumatic height adjustment: 80 mm
- Longitudinal adjustment: 210 mm
- Front/rear isolator to reduce vibration
- Integrated 4-point safety harness
- Passive climate system (active carbon layer)
- Manual lumbar support, backrest tilt, adjustable seat depth

- Seat width: 490 mm

Options:

- Console adapters, swivel tray, seat heating, presence sensor, document box, headrest.
