SPECIFICATION

The **Caspian** seat offers an additional seating solution that combines comfort and practicality. Designed to be folded away when not in use, this seat frees up maximum space in the passageway. Its steel structure with torsion springs allows the cushion to return automatically to the folded position, ensuring quick and easy storage. Featuring a grey ABS base, the Caspian seat is designed for durable attachment to the vehicle body or a bulkhead.

Technical specifications:

- Standard unit width: 425 mm
- Robust steel frame with spring return for cushion
- Grey ABS base for a modern, durable finish
- Weight: 8 kg (seat only)
