SPECIFICATION

Glamox AL42-W compact bedside lamp - LED 6W, 353 lm, with dimmer and USB A+C ports

Long Description:
The Glamox AL42-W is a compact and elegant bedside lamp, specially designed to meet maritime requirements. Its sleek, modern design blends perfectly into any environment, while offering an efficient lighting solution thanks to its energy-efficient 6W LED technology, producing 353 lumens.

The lamp is available in right and left-hand versions, with a choice of black or white finishes to suit your aesthetic preferences. It is equipped with a dimmer switch (S-DIM) to adjust the lighting to suit your needs. A version with dual USB ports (A+C) is also available, offering a practical solution for charging your devices.

Easy to install, the Glamox AL42-W requires just three screws for fixing. Simply plug it in and attach the cover to enjoy the quality lighting.

Optimised for marine use, this lamp combines style, practicality and energy efficiency, meeting the needs of professionals in the sector.
