SPECIFICATION

Erodible matrix antifouling, tin-free, with a high copper content, designed for the maintenance of boats submerged in medium to heavy soiling.

?
CHARACTERISTICS:

- This antifouling is suitable for all surfaces: polyester, steel, wood, except those made of light alloy (do not apply to aluminum).
- This antifouling, based on acrylic binders, allows direct adhesion to previously deglazed and primed polyester surfaces.
- Erodible antifouling is compatible with most antifoulings.

Dangerous. Follow the precautions for use.

Use biocides with caution. Before use, read the label and product information.

For this product: 5L, blue color.
