- Color : Navy blue
- Type of antifouling : erodible matrix

SPECIFICATION

Tin-free, erodible matrix antifouling with high copper content, designed for the maintenance of boats immersed in medium to heavily fouled waters

CHARACTERISTICS :

- This antifouling is suitable for all substrates: polyester, steel, wood, except those made of light alloys (do not apply to aluminum).
- Based on acrylic binders, this antifouling adheres directly to a previously deglazed and primed polyester substrate.
- Erodible antifouling is compatible with most antifoulings.

Dangerous. Observe safety precautions.

Use biocides with care. Read the label and product information before use.

For the present product: 0.75L, navy blue color.
