Centrifugal Blower ZA602 24V 1.1 kW

Réf : **ZA60224**

ZA steel centrifugal fans with non-sparking impellers provide optimum airflow and enhanced safety. Available in 12/24V DC, 230V single-phase and 230/400V three-phase, with IP55 protection, they are ideal for industrial and marine environments.

CARACTERISTICS

CENTRIFUGAL BLOWER ZA602 24V 1.1 KW

Réf. **ZA60224**

Dangerous material : non
Weight :
Catalog page : 130

- Flow : 2900 m³/h
- Weight : 18 kg
- Power : 1.1 kW

SPECIFICATION

ZA centrifugal fans are designed to provide efficient cooling and ventilation in demanding industrial, marine and technical environments. Featuring a steel support flange and a high-strength steel shaft, they are extremely robust and durable.

The non-sparking light metal or Noryl impeller ensures high airflow performance while reducing the risk of ignition, making them ideal for applications requiring a high level of safety. The fans are available in a range of power supplies: 12V and 24V DC, 230V single-phase, 230/400V three-phase, and feature IP55 protection against dust and water splashes, ensuring long-term reliability.

With their compact design and high-performance motor, ZA fans are ideally suited to industrial ventilation systems, marine equipment and installations requiring controlled, continuous air circulation.
