SPECIFICATION

12V marine battery with sealed, maintenance-free cover, designed for mixed use, offering reliable starting and servitude performance.

Technical specifications :

- Type: SMF (Sealed Maintenance Free).
- Handle: Facilitates transport and installation.
- Tilt tolerance: Up to 45°.
- Energy restitution: Reliable even in severe climatic conditions.
- Technology: Calcium/Calcium, increasing service life and reducing water consumption.
- New plate technology: Expanded metal or continuous casting, for improved conductivity and increased starting power.

PRO batteries are distinguished by their high energy reserves and robustness. The 140A, 180A and 225A models feature a semi-traction

design to meet the demands of intensive use.

This maintenance-free range is ideal for boating, guaranteeing optimum performance even in extreme conditions.
