SPECIFICATION

TSL 10/15 - 10/51 series self-priming electric pumps are designed for demanding applications requiring corrosion-resistant materials and reliable performance.

Technical specifications :

- Robust materials : Bronze body, impeller and diffuser, AISI 316 stainless steel shaft.
- Self-priming up to 7 m: Operation without foot valve.
- High-performance mechanical seal: Made of carbon, ceramic and NBR for optimum watertightness.
- Quiet, stable operation: Reduced vibration for continuous use.
- Multiple power supplies: 24V DC, 230V single-phase, 230/400V three-phase (other versions on request).
- Available options: ATEX version and reversible flow version on request.
- Suitable for marine, industrial environments and applications requiring efficient management of continuously entrained liquids.???????
