CARACTERISTICS

FL60 LED DECK FLOODLIGHT 9000 LM 230 V - 120° BEAM ANGLE

Réf. **FL60202000**

Dangerous material : non
Weight : 12,72 kg.
Catalog page : 314

- Angle : 120°
- Consumption : 80 W
- Length : 454 mm
- Luminous flux : 9000 lm
- Number of LEDs : 2
- Weight : 11.70 kg
- Height : 354 mm
- Width : 265 mm
- Color of lighting : 5000 K
- Lighting technology : Led

SPECIFICATION

Available in three versions (1, 2 or 4 LED lamps), this marine floodlight is designed to meet all marine lighting requirements, from the most standard to the most intensive. Thanks to its robust design and high efficiency, it guarantees reliable, long-lasting operation, even in the most demanding environments.

The seawater-resistant anodised aluminium housing provides excellent cooling, extending the life of the components. The stainless steel frame and mounting bracket provide optimum mechanical strength in all conditions.

Equipped with a high-performance LED source, this floodlight provides instant, stable illumination and remains unaffected by voltage drops. It complies with VDE, IEC/EN standards and the requirements of maritime classification societies, and is DNV-certified, a guarantee of safety and professional quality.
