- Luminous flux : 450 lm
- Model : PIXA - battery-operated version
- Weight : 138 g
- Max. power : 450 lm
- Complies with : CE
- Color : Yellow / Black

SPECIFICATION

The **PIXA headlamp** is designed to meet the demands of industrial and maintenance work in harsh environments (*not suitable for use in explosive atmospheres – see model Pixa Z0*).

- **Waterproofing**: IP68 – dustproof and waterproof up to -2 meters for 1 hour
- **Robustness**: shock resistance IK08 (EN/IEC 62262), drop-resistant (up to 2 meters), and crush-resistant (up to 80 kg)
- **Resistant to certain chemical products**

Versatile lighting, equipped with **Constant Lighting technology** that ensures consistent brightness and adapts to all situations:

- **Beam types**: wide, mixed, or focused
- A **wide, uniform beam** for comfortable close-range work
- **Two mixed beams** for easy movement
- A **focused beam** for long-range vision
- A **10-second BOOST mode**, accessible at any time, for short bursts of maximum brightness

Easy to use and practical headlamp:

- Single rotating switch, operable while wearing gloves, for accessing all functions
- Side-mounted switch keeps the lens clean
- Tilting plate allows the lamp to be directed as needed

- Battery charge level indicator lights up at startup and shutdown
- Automatic locking when turned off to prevent accidental activation
- 180° rotation system protects the lens during storage and transport
- Symmetrical headband adjustment for quick and easy fitting
- Headband is removable and washable
- **SLOT ADAPT plate** included, for quick mounting on Petzl helmets with a slot
- Also compatible with the **HELMET ADAPT adhesive mount** (sold separately) for installation on any helmet type
- Supplied with three AAA/LR03 batteries, PIXA is also compatible with the CORE rechargeable battery (not supplied), thanks to its HYBRID CONCEPT construction.
