CARACTERISTICS

FIRST DOUBLE TERMINAL BATTERY 110 AH

Réf. **BAT12110C7**

Dangerous material : oui
Weight : 24,90 kg.

- Capacity : 110 Ah
- Length : 330 mm
- Model : P204901
- Weight : 24 kg
- Height : 242 mm
- Width : 172 mm
- Battery terminals : Double
- Battery technology : liquid electrolyte

SPECIFICATION

Sealed-cap, maintenance-free 12V marine batteries, ideal for everyday low-intensity service and starting applications requiring reliability and performance.

- Type: SMF (Sealed Maintenance Free).
- Tilt tolerance: Up to 45°.
- Starting : Reliable even under severe climatic conditions.
- Plate technology : Expanded metal or continuous casting, ensuring better conductivity and increased starting power.
- Technology: Calcium/Calcium, extending life and eliminating water consumption.
- Self-discharge: Virtually zero, guaranteeing optimum availability.

First batteries are distinguished by their high energy reserve and robustness, offering an economical and efficient solution for marine energy needs.

Note: Double terminals are only available on model 110A.
