- Lighting technology : Led

## SPECIFICATION

The Yeu LED reading light on a horizontal base from Mantagua is the ideal solution for precise reading lighting, particularly at the chart table or in the cabin. Its very narrow 10° beam ensures targeted light diffusion without disturbing those around you, while offering the equivalent power of a 10 W halogen bulb. Easy to install thanks to its sturdy base and two screws (supplied), it comes with 10 cm of stripped cable ready for connection. Equipped with high-performance CREE® LEDs, it guarantees quality, durability and reliability over time, even in demanding marine conditions.
