SPECIFICATION

The Yeu range of vertically mounted LED reading lights combines reading comfort and robustness for life on board. Designed with an adjustable flexible arm and a very narrow beam, it provides perfect targeted lighting for reading without dazzling those around you. Its vertical mounting bracket ensures excellent stability in response to the boat's movements, especially when the lamp is mounted against a bulkhead. Depending on the model, a built-in dimmer allows you to easily adjust the light intensity to suit any atmosphere. Elegant, functional and durable, it is the ideal marine reading light for precise and comfortable lighting in all conditions.
