Keller LED Ceiling Light 24 V – 22 W – 500 lm

Réf : **01376**

KELLER offers a wide selection of LED ceiling lights, ideal for lighting small to medium-sized engine rooms, gangways and decks. These ceiling lights are waterproof with an IP67 rating, which means they can be exposed to jets of water. They are available in 24VDC or 230VAC versions and are extremely easy to install, with no need for a screwdriver. The plastic materials used in their manufacture are UL94 V0 classified, guaranteeing low flammability. An optional 24VDC or 230VAC emergency light is available. The KELLER ceiling light is both robust and energy efficient, offering considerable maintenance savings by eliminating the need to change ballasts or neon tubes.
