CARACTERISTICS

FRD 63 CABLE WINDER
Réf. **FRD63**

Dangerous material : non
Weight :
Catalog page : 290

- Length : 400 mm
- Model : FRD 63
- Weight : 19 kg
- Power : 0.25 kW
- Height : 500 mm
- Width : 269 mm
- Cable diameter : 25 mm

SPECIFICATION

The **Feit cable winder** is specifically designed for marine environments where reliability, safety, and durability are essential. Made from corrosion-resistant materials such as anodized aluminum, stainless steel, and Teflon®, it ensures a long service life with minimal maintenance.

Equipped with a ventilated electric motor and a worm gear reducer, the Feit reel provides smooth, powerful, and quiet operation, even under heavy loads. Its Teflon® roller guide system prevents cable misalignment, while proximity sensors ensure precise stopping without mechanical contact, reducing wear and tear.

Cable extension and retraction can be controlled via a remote control panel or a radio control with visual indicators, offering easy and secure operation.

Available in several models (FRD63, FRD150, FRD200), the Feit range adapts to your specific needs with a wide selection of customizable fittings, tubes, and accessories.

Key features:

- Robust, durable marine-grade construction
- Powerful, ventilated, and silent motor
- Electronically regulated cable winding

- Remote or radio control operation
- Teflon® cable guide and proximity stop sensors

Choose **Feit** for certified, reliable cable winders built to perform in the most demanding marine conditions.
