SPECIFICATION

The **HERO SOLAS ORIL liferafts**, supplied in cylindrical containers, are designed to **safely protect passengers during coastal or national navigation**, for voyages under 20 nautical miles, or for inland waterway operations. These liferafts offer **quick and reliable safety** until rescue teams arrive.

Certified **MED by DNV/GL**, they comply with EU regulations (EU)2018/773, MED/1.39.SOLAS74, III/4 & X/3, the LSA Code, and the 2000 HSC Code, as well as the French maritime Division 311. Classified as **HSC–A**, their safety pack meets the requirements of **High Speed Craft (HSC)** operations.

Key features

- Navigation type: national, coastal, under 20 nautical miles, or inland waters
- Capacity: 6 to 152 passengers
- Safety pack compliant with HSC standards
- MED approval, SOLAS and HSC certified
- Cylindrical container for safe and compact storage

- Quick and reliable passenger safety deployment

These liferafts combine **reliability, regulatory compliance, and ease of use**, providing an **ideal safety solution for coastal and inland navigation**.
