SPECIFICATION

Designed for yachts and mega-yachts navigating worldwide, the **HERO Yacht SOLAS life raft** delivers high performance, safety, and compliance with international maritime standards. Certified under **SOLAS A and B**, as well as European MED directives and LSA codes, it ensures peace of mind in the harshest conditions.

Key features

- **Capacity**: 6 to 16 persons (depending on model)
- **Container & storage format**: cylindrical container or compact ""flat"" version
- **Maximum stowage height**: up to 36 meters
- **Buoyancy structure**: 3 independent inflatable tubes (upper, lower, and automatic arch) with non-return valves
- **Insulated floor**: rubber-coated fabric, closed-cell foam, and aluminum film for optimal thermal insulation
- **Anti-drift ballast**: instant-fill stabilization pockets
- **Boarding / access**: large entrance, reinforced handles and integrated ladders
- **Visibility & signalling**: orange canopy with SOLAS retro-reflective strips and external LED light (manual or automatic depending on

version)

- **Compliance & approvals**: SOLAS, MED, LSA certificates – approved by DNV/GL
- **Service & maintenance**: annual servicing with complete package including full service and spare parts

Highlights

- Premium safety for yachts over 24 m
- Fast deployment and redundant buoyancy for extra reliability
- High visibility to ensure easier rescue detection
- Fully compliant with top-tier international standards
- Easy, predictable maintenance with professional support
