CARACTERISTICS

BALL VALVE SOLENOID, FEMALE-FEMALE 3/4"
Réf. **2300AE34**

- Thread diameter : 3/4 ""

Dangerous material : non
Weight :

SPECIFICATION

Non-stick valve ideally suited for professional marine installations, cooling systems, and hydrodynamic applications. Its robust construction ensures long-term reliability and durability in harsh marine environments.

- Bronze body for excellent corrosion resistance
- Full-flow design ensuring maximum flow rate
- BSPP EN 10226/1 (BS 21) threaded connections
- Electric actuation for automated system control
- Compliant with Article 2300 (type approval)
