SPECIFICATION

Compact and powerful submersible electric bilge pump—featuring a wide filter base to ensure maximum surface area exposed to bilge water.

- Built-in automatic sensor
- High performance
- Compact design—fits into small spaces in the bilge
- Low amperage draw
- Efficient design: the large filter base ensures maximum surface area exposed to bilge water
- Easy installation: multiple wiring locations, extra-long wires
- Easy maintenance: access to the motor cartridge and filter area
- Reliability: rugged, fuel-resistant ABS housing
