Lucas LSLC140-12 AGM VRLA Battery 12 V 140 Ah

Réf : **AGM12140**

High-performance sealed VRLA AGM battery providing reliable, maintenance-free power for a wide range of applications. Compact, robust, and featuring low self-discharge, it ensures long service life and excellent cycle resistance.

CARACTERISTICS

LUCAS LSLC140-12 AGM VRLA BATTERY 12 V 140 AH

Réf. **AGM12140**

Dangerous material : non
Weight : 45,00 kg.

- Capacity : 140 Ah
- Dimensions (LxWxH) : 342 x 172 x 280 mm
- Length : 342 mm
- Weight : 45 kg
- Height : 280 mm
- Width : 172 mm
- Battery technology : AGM

SPECIFICATION

The Lucas VRLA AGM range consists of sealed lead-acid batteries using Absorbent Glass Mat (AGM) technology, designed to deliver high performance and outstanding reliability in both standby and cyclic applications. Thanks to their VRLA (Valve Regulated Lead Acid) design, these batteries are completely sealed and maintenance-free, making them ideal for indoor use or sensitive environments.

Key Features

- Sealed, maintenance-free AGM technology
- Wide range of capacities
- Low self-discharge rate for long-term storage
- Excellent cycle life (up to 5–6 times higher than conventional batteries)
- Fast charging and high energy efficiency
- Robust construction with high vibration resistance
- Suitable for series or parallel installation

Applications

Versatile, the Lucas VRLA AGM range is suitable for many uses:

- Renewable energy and energy storage

- Fire safety and alarm systems
- Uninterruptible Power Supplies (UPS) and backup power
- Electric mobility
- …

Benefits

- High reliability and long service life
- Compact design with high energy density
- Enhanced safety – classified as a non-hazardous product
- Operates across a wide temperature range
