

UP1-TB/HD Turbo Ballast Pump – Heavy Duty Flexible Impeller Turbine – 120 L/min – 12 V

Réf : **UP1TBHD12V**

UP1-TB Heavy Duty marine transfer pump with flow rates up to 120 l/min. Low current draw, reduced thermal stress and outstanding durability for demanding continuous-duty applications.

CARACTERISTICS

UP1-TB/HD TURBO BALLAST PUMP – HEAVY DUTY FLEXIBLE IMPELLER TURBINE – 120 L/MIN – 12 V

Réf. **UP1TBHD12V**

- Pressure : 1,5 bar
- Fuse protection : 30 A

Dangerous material : non
Weight :

SPECIFICATION

The **UP1-TB Heavy Duty marine transfer pump** has been designed for applications requiring high reliability, low power consumption and extended service life. Its reversible flexible impeller design delivers the same flow rate in both directions of operation.

With flow rates of up to **120 l/min**, this version is engineered for durability and thermal efficiency thanks to its reduced current draw. It is particularly suited to intensive use and extended operating cycles.

- Flow rate up to **120 l/min (32 gpm)**
- Low current draw: approximately **18–20 A**
- Reduced thermal stress
- Successfully validated through extended durability cycles
- Ideal for heavy-duty applications and maximum service life
- Reversible design with equal flow in both directions
- Self-priming up to **1.5 m (5 ft)**
- Maximum pressure: **1.5 bar (22 psi)**
- **EPDM flexible impeller**
- Compact footprint
- Straight or elbow fittings available for **25 mm, 32 mm, and 38 mm hoses**
