CARACTERISTICS

WATERPROOF GEL 12 VDC 110 AH BATTERY

Réf. **GEL12110**

Dangerous material : non
Weight : 33,00 kg.

- Capacity : 110 Ah
- Dimensions (LxWxH) : 330 x 171 x 222 mm
- Length : 330 mm
- Weight : 33 kg
- Height : 222 mm
- Width : 171 mm

SPECIFICATION

GEL batteries have a very good lifespan in floating or cycling use. They are resistant to deep discharges. This battery is particularly suitable for slow discharge applications, which means it can provide constant power for long periods of time without losing efficiency. It is therefore ideal for powering devices that require a stable and reliable energy source, such as security systems, alarms, solar panels, and marine equipment.

Key points:

- Service battery
- Long lifespan
- Resistance to intensive cycling
- Copper M8 terminals
- Very low self-discharge
- Maintenance-free and gas-free
